## **DETAILED ACTION**

This communication is in response to Applicant's Remarks filed 05 April 2007.

### ***Status of Claims***

Claims 1, 10-20, 22 and 33-43 have been cancelled. Claims 2-3, 5, 9, 21, 23-27, 29 and 31-32 were amended. Claims 1, 21 and 23 are independent claims.

### ***Claim Rejections – 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 2, 21 and 23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 2 recites the language "presentation of information associated with a virtual account card" in the claim language. It is unclear to the Examiner what is covered by this language. The Examiner would suggest adding claim language that demonstrates that the information that is presented is the information that is relevant to the proposed payment transaction to be preformed. Appropriate correction is required.

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

Art Unit: 3693

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 2, 21 and 23 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Specifically, the claims describe: "as said trustee releases a level of funds from the trust account in response to user directive, to render payment." The Specification states that "the trustee of the trust account is a bank or other financial institution that is appointed to administer the funds within the trust account." The Specification is not enabling for how a bank account can release the funds in a trustee capacity. The apparent novel concept of the electronic payment card is that it is linked to a trust account and under the supervision of a trustee, and therefore, this distinction must be made to distinguish the card from other pre-paid or pre-authorized cards in which a trustee (or bank) releases funds in response to a user directive up to a pre-determined level of funds. Appropriate correction is required.

***Allowable Subject Matter***

5. The following is a statement of reasons for the indication of allowable subject matter: the claims disclose a method, system and apparatus for linking an electronic payment card to a trust account under the supervision of a trustee, which is not

Art Unit: 3693

disclosed by the prior art. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

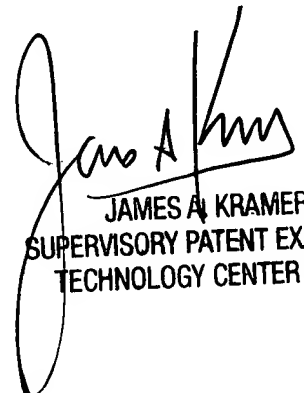

6. The Applicant is requested to contact the Examiner and arrange for a telephone interview.
